Measure: HB4080

TO THE HONORABLE LEGISLATORS,

I feel like we are back in the wild, wild west when we had paid bounty hunters to shoot, poison and trap animals we deemed "pests". We allow suburbs to sprawl and offer no alternatives to loss of habitat for these animals, so we just kill them because homeowners ask the government to? Seriously?? Can we not trap and move them or preserve habitat to allow them to live with us? I find it disgraceful that our State is in the predator control business. I think you will find humans creating way more trouble than animals in our society. Is this why we have a government? Please oppose this bill.

Sincerely,

Catherine Newsheller
