

Submitter: Claudia Curt

On Behalf Of:

Committee: House Committee On Rules

Measure: HB4133

HB4133 allows people to register online using the last 4 numbers of a social security number. This will allow anyone with anybody's SSN to be used. It also allows for 3rd party organizations to submit a social security number to register other people. I am concerned that fake and stolen numbers can be used. I am concerned that apparently no proof of identity, residency or citizenship is required and very concerned about the opportunities for fraud should this bill be passed. We need voter integrity for fair elections and this bill will do nothing to ensure that.

Please do not pass this bill!!

Claudia Curt
