

Submitter: Katrina Gaines

On Behalf Of:

Committee: Senate Committee On Veterans and Emergency Preparedness

Measure: SB1517

“Emergency Declarations” have created unlawful mandates and unnecessary suffering throughout the entire state of Oregon. Businesses have been lost, jobs have been lost and people have left the state rather than be forced to take experimental vaccines for a virus that is over 97% survivable. It is time that proper action is taken to ensure this doesn’t happen any longer. By requiring evidence in writing by the governor in future emergencies in order to continue the state of emergency, we are ensuring an accurate and accountable process. This government overreach ends here, and legislative checks and balances begin with this bill. Please vote yes SB 1517 and get this bill passed.
