

Submitter: Richard Chatterson

On Behalf Of:

Committee: House Committee On Human Services

Measure: HB4011

As one of the many retired fixed income seniors in the state the fact that you would now imposed a new tax to give away \$750 a month to homeless for doing nothing and deteriorating my life to put me in the position of being homeless myself. I have to say this is one of the most absurd forms of representation I have ever witnessed And if this passes I will be extremely motivated to cure the problem in a grassroots fashion in every election here forward.
