

Submitter: Dan Whitmore

On Behalf Of:

Committee: House Committee On Rules

Measure: HB4133

To whom it may concern,

I strongly oppose this bill. With the FACT, there are many false SSI numbers floating around out there, even people have access to dead persons SSI numbers so this would make for an insecure election and we certainly don't need that again.

Oh and to be able to register electronically, bad idea.

Sincerely

Dan Whitmore
