Measure: HB4080

I live in a rural area in western Oregon. I come across idiots everyday that I find inconvenient, but I don't go looking to hire lowlifes to kill them. The hubris of this proposed legislation is appalling. Humans come to a place and steal all the habitat from wildlife so they can exploit it, and then if they find the wildlife that were already there to be an inconvenience, they want to kill it. Or have someone kill it for them. Humans are the problem; stop their destructiveness. No more hearings or work sessions on this ill-conceived bill. Kill HB 4080.
