

Submitter: Blaine Ackley

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB4151

Co-Chairs Beyer and McClain and members of the committee:

I wish to offer three further arguments in hopes of amending or in opposition to the bill:

1) The Capless fuel system in some newer cars can be confusing as the video demonstrates. So shouldn't the station be forced to provide assistance to help people fill up their fuel tanks?

<https://www.youtube.com/watch?v=nJNiiW8kLQU>

And there can be problems with capless fuel systems:

<https://www.youtube.com/watch?v=HrINF3ZujC0>

2) There are other issues that could be life threatening if we allow inexperienced people to pump their own gas. At the very least, there should be an attendant on call to handle customer problems in the self-fill pumps.

3) Oregon is unique in the nation and I kind of like it that way.

I hope you will keep these things in mind as you continue to examine this proposed legislation.

Sincerely yours,

Blaine Ackley

Hillsboro
