I SUPPORT [SB 1513]

It is unreasonable to re-create 'slavery' for any and all reasons.

The two-week notice of 'over-time' is certainly a weird remedy.

If the employee were under contract and as a condition of their employment, the employee was made aware and assented to condition of the immediate and unplanned over-time, the condition might be viewed as one of adhesion. This scenario presents a challenge to [SB 1513].
