

Submitter: RONNIE DANIELS
On Behalf Of: self
Committee: House Committee On Rules
Measure: HB4133

Dear house members, I do not support this proposed bill. With the borders open, a high level of fraud can exist. No proof of signature on file at elections office or verification by using, oregon drivers license. with over 35 million false social security numbers in country, what happens if somebody uses my social security number and register to vote? it will cancel my vote and others, disenfranchising the legal voter. the rush to paperless verification may affect us that has ADA conditions. This is very wrong and can be used to undermine the true residents of oregon votes. I do not want 350 voters registered on the same day.at 1 address diluting my vote. If a voter do not have the gumption to go get a card and register to vote, why should my government make it so easy, on our tax dollars? DO NOT PASS THIS BILL!!!!
RONNIE W. DANIELS
