On Behalf Of: Self
Committee: Senate Committee On Energy and Environment
Measure: SB1589

I am submitting my testimony in support of SB1589 because it is not unreasonable to curtail the freedom of a few along ONLY A PORTION OF THE RIVER in order to protect the water quality and habitat quality of a stretch of river that benefits multitudes of people and wildlife species, locally and downstream, now and into the future. It's a simple cost benefit equation which results in far more benefit than costs.
