

Submitter: Polly Daniel

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1589

I wholeheartedly oppose SB 1589. These restrictions are absolutely ridiculous and not fact based. There has been zero studies on any of the claims being made. The Willamette River is the biggest and most used body of water for wake sports in the area. If you do this ban where will everyone go? Hagg Lake? Hagg Lake is so small and it would be overcrowded and unsafe to recreate in. This will devastate the boating industry in Oregon.

It's ridiculous to make this kind of restrictions on a public waterway...this is not private Lake Oswego.

Please don't kick my family off of our beloved Willamette River.
