

Submitter: Melanie Doblender

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1589

Growing up around the Newberg pool my whole life, I have spent countless days on the water. My greatest childhood memories are on our boat with my family learning to do water sports. Now I am teaching this to my son and do not believe our right to be able to freely and safely use our boat for what it is made for is a shame. Most people are respectful and follow the rules. I would hate to see everyone miss out because a few people went to protest. Don't take the joy away from all of us please
