

Submitter: Jeremy Spriggs

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1589

I oppose this bill. I work at Active Water Sports and targeting one group of river users will not solve the issue. All boats can erode the riverbanks. A fishing boat going 7 mph on the water will create the same effect as a surf compatible vehicle. Targeting one group of boater's seems to be more related to a personal issue by homeowners on the river than a legal issue in the community. The river has been a fun place for families to get outdoors and be active in our local river community, please do not take this away from us.

Thank you for your time.
