Committee: House Committee On Business and Labor

Measure: HB4002

I am not a production agriculture producer. I am an every day citizen that had close contact with the farming community when I was in the workforce. Farming is not an 8 to 5 365 days a year process. It is seasonal and from the over 100 farmers in Oregon that I dealt with for over 35 years The pay for the work was and is more the adequate for a sustainable living. This is a bad bill that will only raise the cost of an already inflated cost of groceries that the producer will not see any benefit. I encourage you to defeat this effort and look closer at the real situation and not apply the 8 to 5 protocol to a non 8 to 5 situation.
