

Submitter: Kyle Patrick

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1589

This is not right. The river is a navigable waterway, and you all don't have the right to pick who can use it. Please stop this silliness of your overreach of "Power".

This was a well-traveled waterway in a time when we as a State managed and took care of the dredging with much larger and bigger boats, then what you want to kick off of the water. I grew up in the Portland/Newberg area and have raised my kids on this waterway.
