

Submitter: Michael Murray

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1589

This bill is incredibly lopsided towards a small interest group with only their beliefs in mind. They have ZERO evidence that the river is being harmed in any way. Keep in mind also that this river gets used 3 months a year in the summer. I live on the river and can tell you first hand that it is only used on the weekends of those 3 months as well. That's about 12 weekends of surfing on a stretch of river that has no houses on it at all. The fact that we have rules against this already is ridiculous and unnecessary. The government overreach has already gone too far on PUBLIC waterways we should all be able to enjoy.
