On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB4141

Please vote no on this bill. It will kill the industry in Oregon and provide little to no impact change on the environment when other methods are used to replace the diesel. Secondly, the people of Oregon will not be able to get food or other goods need if this is passed. This bill is trying to replace diesel without a solution when they are gone. This will be horrible for the state.
