

Submitter: Mark Orr
On Behalf Of: SB1530
Committee: Senate Committee On Health Care
Measure: SB1530

Dear Committee Member,

As an Oregon resident who cares deeply about those struggling to build their family in our state, I strongly urge you to pass the infertility insurance bill before you, which will help Oregonians build their families when faced with cancer or other conditions that can cause infertility. Oregon families need your support now.

I need your support, along with the 1 in 8 couples in our state living with the disease of infertility and the thousands of Oregonians diagnosed with cancer during their reproductive years.

I feel a lot of Oregonians would benefit from this bill, including my family. As my daughter and son in law have been trying for many years to have a child. This bill would give them an opportunity to further their fertility treatment.

It is time for Oregon to update its insurance laws to include coverage for the standard of care for patients with infertility and those diagnosed with cancer or other conditions that may cause infertility. By passing this pro-family legislation, Oregon will join 19 other states across the nation that help hardworking families get access to medically necessary treatments while only minimally impacting insurance premiums, if at all. States with IVF insurance have lower rates of multiple births than states without IVF coverage, and lowering multiple births decreases overall health care costs and results in healthier babies and healthier moms.

Please support Oregon families by moving this pro-family bill forward. Thank you!

Sincerely, Mark Orr
