

Submitter: Megan S

On Behalf Of:

Committee: Senate Committee On Veterans and Emergency Preparedness

Measure: SB1517

I am asking you to support SB 1517. These last couple years has proven the need for more checks and balances within our government during times of state emergencies. I support this bill because I think it would be good for the legislature to have more input when the Governor wants to extend state of emergencies. One person should not have all that power without the input, guidance, discussion and the ability of the legislation to put an end to the one person ruling. More people at the table for important decision making policies is just good practice. The Governor during this time had too much power and control and in the future I would like to have more transparency and checks and balances. Because of this I urge you to support SB 1517.

Thank you,  
Megan
