

Submitter: Arlene Kovash

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB4141

This is insane! This would essentially put a majority of farmers out of business as you can't abandon million (maybe billions) of dollars of equipment. There are already laws governing the quality of the fuel so why would you destroy ORegon this way? You might as well cut to the chase and ban food.

Please think this through!,
Paul and Arlene Kovash
