

Submitter: Sandy Chung
On Behalf Of: Sweet
Committee: House Committee On Judiciary
Measure: HB4131

Sweet, Portland: Where gas goes depends on the wind. Neighborhoods are adversely impacted by the drift. We need non-lethal options for some situations, but the dangers present for someone like me (chronic bronchitis since my time in the USMC) are too great to use without proper discretion. And, I would argue, in Portland specifically the use of tear gas has not been tempered with good judgment.
