

Submitter: Diane Downs

On Behalf Of:

Committee: House Committee On Housing

Measure: HB4118

The HB 4118 with the proposed -1 amendment are short sighted and ill-conceived. Please do not sacrifice the solid land use planning of the last decades by enacting this sweeping overly broad bill.

Thank you for your thoughtful consideration to more measured solutions to the problem of affordable workforce housing. We do not need to sacrifice farmland thoughtlessly.

Sincerely,

Diane Kocher Downs
