

Submitter: Judy Vetsch
On Behalf Of: na
Committee: House Committee On Housing
Measure: HB4118

To the House Committee on Housing:

No, on Bill 4118 which basically guts our land use laws by allowing land owners to get approval from their local governing agencies to expand the city's urban reserves. In favor of more affordable housing for our work forces but not at the expense of our precious farmlands.

As a 50-year Oregon voter who has always been proud our commitment to farmland preservation, I vehemently object to this bill.
