

Submitter: James Prescott

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB4141

This bill is an outright jab at Oregon workers around the state. This is an absolute job killer and a unnecessary bill being put forth to be voted on. We've already regulated this fuel to above and beyond high standards. To take something away without offering an alternative to people who rely and depend on it is being absolutely selfish and in caring towards our fellow Oregonians. Vote No on HB4141
