

Submitter: Nicole Chaisson  
On Behalf Of:  
Committee: Joint Committee On Transportation  
Measure: HB4141

I am a hay farmer and I am asking you to not ban Diesel until there is an equitable solution for all Oregon Citizens for different options. I cannot afford a new electric truck or tractor. My hay goes to feed cows that are used for food. You will impact the supply chain to feed people. Again there needs to be an equitable solution first before any timelines are made. You're literally pulling the cart before the horse. Think realistically not politically. You will destroy small farmers!
