

Submitter: Iris Butler

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB4141

Oregonians need diesel every day on & off road for work, driving, our economy, our livelihood. Loggers, farmers, ranchers, & truckers bring supplies to every business & grocery store in Oregon! We oppose this HB 4141 & ask you to use COMMON SENSE! Why would you want to destroy the people, workers & economy of our state? You think we have inflation & high prices now?? It will affect all those who are for it too, they just have no idea. This bill is absolutely absurd!
