

Submitter: Tara Hurley

On Behalf Of:

Committee: House Committee On Education

Measure: SB1521

Please join me in opposing HB 1521 which undermines our democratic process. Our school board members are elected by their communities to serve the will of the people in making school decisions including hiring and firing superintendents. Removing the school board's ability to decide to terminate a superintendent indirectly removes the local communities' input through their vote for the school board members. Allow our local school boards to provide needed oversight and accountability by voting no on HB 1521!
