

Submitter: Brianne Johnson
On Behalf Of:
Committee: House Committee On Education
Measure: SB1521

Goodmorning,

I do not support this bill and urge you to oppose it as well. School Boards represent parent and student needs and interests and therefore should continue to hold the power to hire or fire a superintendent. If you remove this power then you are supporting an anti-democratic system, and more of an authoritarian system. The superintendent should continue to answer to the school board and the school board answers to the parents and students. If you support this bill you are supporting the concept of removing parents from making decisions for their children. I urge you to oppose this bill.

Thank you,
