

Submitter: John Azevedo

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure: SB1549

Supply and demand rule economics, by capping pay for travel nurses you're sending the message that we are not valued!! Especially in a time that we are in need of nurse more than ever during this pandemic. If you are to cap pay you will be making a big mistake the nursing community will come together, we will be heard and we will win against this unjust law you are trying to pass. Want to save the healthcare system cap the CEO's pay deny them the millions that they get paid in bonuses!! The people of this country are getting tired for the corrupt bull shit you are doing and every deceitful act against the hard working people of this country will not be forgotten.

Mark my words this will not be something that will work in your favor!!. I will along with countless other band working in any state that will pass this law.

Sincerely

A concerned citizen!!
