

Submitter: Jillian Perkins

On Behalf Of:

Committee: House Committee On Health Care

Measure: SB1529

I deeply oppose this bill, as the new language gives the OHA and OHA Director far too much authority for unelected individuals. The bill is far too ambiguous in defining (or not defining) how a Public Emergency can be determined. This removes important governmental oversight by elected representatives, and places an unreasonable amount of power in the hands of unelected bureaucrats. It removes accountability and opens the door wide for abuses of power. As an Oregonian and Portland resident, I am deeply opposed to the passage of this bill.

Thank you for your consideration,

Jillian Perkins
