

Submitter: Allison Mysiewicz

On Behalf Of:

Committee: House Committee On Health Care

Measure: SB1529

No for SB 1529 engrossed with -A3 . Changing the wording so drastically to allow unelected officials to decide without even supported evidence sounds like a huge violation of power given to the wrong parties. It certainly is! Why would this be worded like this? Why is this changed so that it casually covers a lot more than just Sudafed usage being monitored properly. This bill has been corrupted and modified in a very dangerous way so it should be scrapped; SB 1529 in it's current form is an abuse of our system and a violation of our Oregon Constitution. Unelected officials having power over the people in a regard like this is tyrannical and a path to dictatorial government systems. Protect our freedoms vote this out.
