

Submitter: Diane Beck

On Behalf Of:

Committee: House Committee On Health Care

Measure: SB1529

I am adamantly opposed to SB 1529 Engrossed. Underhanded moves like granting the OHA, or anyone else power to make these decisions, inside a bill that's original intent is completely unrelated is why no one trusts our government. The director of OHA/ODE, or anyone else should not have that kind of power. It's been proven these organizations are corrupt and play into whoever is feeding them financially. Also, making Sudafed available with identical a GOOD idea, just not all the other garbage. Thank you!
