

Submitter: Simon Evangelist

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1552

I am in support of the bill to remove the 3% cap. Everyone has the right to school and to choose which school the child and the parent want to go to. This breed competition between schools to improve their standards of learning. Which will improve Oregon overall standing in education. No one should be limited to a weak school based on their geographic location. Thank you.
