

Submitter: Sharon Harada

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: SB1589

I support SB 1589.

Wake Surfing Boats designed to create large waves being used in a body of water that does not generate waves that large make no sense. The number of registered boats that are impacted by this new law is very small but very damaging to the river ecosystem. This bill does the most good with an impact on a very small portion of the population.

Thank you and I hope you support this reasonable bill.
