

Submitter: Julie Fagen

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: SB1589

Committee Members,

I am in support of SB 1589 simply because this section of the river is not wide enough to allow wake boats to operate and preserve the shoreline at the same time. I mostly paddleboard on the river, so I can really feel the size of these waves being produced. I pretty much have to sit down every time a wake boat comes by. Other boats do not present that problem. If the river was wider, it might work for these boats, but it just isn't. The width of the river can't be modified, but user regulations can be.

Please vote in favor of this Bill.
