

Submitter: Jeffrey Radich

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: SB1589

Please do not allow this to pass. I have written testimony about this too many times. This is not a good bill. It will ruin an activity that I have been a very active participant in since I was a little kid. I learned to water ski behind my grandpas boat with my cousins, I have taught all of my kids and I know that they will pass it on as well. You the elected officials keep closing areas that we used to be able to enjoy. Why would you put a weight limit on this? This is not based on science. Please vote against this bill.
