

Submitter: Blair Cooper

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1552

I support removing the requirement for a student to get approval from their school district if they choose to participate in an online program outside of the one that is being provided by the school district. The ones that are being provided by certain school districts are not nearly as good as some of the other ones that have been in place for years. And on a side note, if the schools were doing a better job of educating rather than indoctrinating, this would be a moot point!
