

Submitter: William Tufts

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: SB1589

I've already submitted my opinion in which I strongly oppose this bill. As you know, boats cause a fraction of a percent of the erosion on the Willamette in the Newberg Pool. Most, by far, is mother nature and landowner's poor decisions on bank vegetation. Boating is one of the most wonderful activities for families to take advantage of. Further restricting boating activity in the Newberg Pool is unnecessary and foolish.
