

Submitter: Dasha Konev

On Behalf Of:

Committee: House Committee On Health Care

Measure: SB1529

I oppose SB 1529A as an unelected person has no authority to make a declaration of health care emergency taking away a person's freedom to choose what to do for them and their family individually, since we are a free people per God and constitution. This attempt to take our freedom will fail in Jesus name. Amen!
