

Submitter: Marshall Sanders

On Behalf Of:

Committee: House Committee On Health Care

Measure: SB1529

Anything other than a Pro-Choice stance, meaning voluntary participation, in any medical procedure, process or device is an unconstitutional, illegal and immoral abrogation of the human rights of people. No government official or employee has the right to command over the bodily autonomy of another human being. This must be cast in stone by the Oregon Legislature and made sure HSA or OHA or the Governor or anyone in government or outside it can dictate to people any intervention of a human being's bodily autonomy to choose for themselves free of punishment or coercion.

Anyone who authorizes anyone in government to intervene in the bodily autonomy of another human being needs to bear legal and financial responsibility for the negative results and lawsuits that come after them.
