Committee: House Committee On Health Care
Measure: SB1529

Oregonians are watching you all, and can see the gut-and-stuff tactics being used in the revisions to this bill. In its current form SB 1529-engrossed blatantly institutionalizes and legalizes tyranny. What moneyed forces are pushing this kind of legislation to set Oregon up to legalizing tyranny and fascism while criminalizing American freedoms? Why aren't legislators with any conscious standing in opposition to this kind of legislation that goes against everything American stands for? Do the majority of Democrats really stand with Klaus Schwab and the New World Order? Do you know that once this kind of tyrannical takeover is installed, you will be just another minion? And when your conscious eventually calls you to stand against tyranny, you will be just another domestic terrorist. Wake up! Stand up! Do not support SB 1529-engrossed.
