

Submitter: Mike Grubb

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: SB1589

This bill would negatively impact many, many families that use the Willamette River for recreational boating, along with businesses that support the boating community.

My family currently uses the river for recreational boating from May through September, but we would be banned from the river if this bill were to pass.

As a member of the boating community and a local small business owner, I am strongly opposed.

Thank you.
