

Submitter: Scott Putnam

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: SB1589

I oppose this bill as I've lived in the river for the past 11 years. The erosion caused is not from boats but from the drastic rise in the river over the winter months. I also have a house on the upper Deschutes river and has motorized boats and the erosion is also caused by the water flow. Don't take our rights away to enjoy the limited time boaters have on the river. We just need to educate boaters not aware of the zones currently in place for wakeboarding and wakesurfing
