

Submitter: MICHAEL COLLIER

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: SB1589

I oppose this bill to limit wakeboard boat sizes. The environment issues submitted have not fully been studied and the area that is required to stay open for access is the tiniest, tiniest fraction of the river footage compared to the miles and miles of river where boats can not go for sport. The public need access for boating activities for the family and community within close distance to livable areas and not have to drive for hours to enjoy water-sports and support local boating communities. More education and on-water policing and research are needed to make a win-win decision. Please vote no on this bill. Thank you.
