

Submitter: Esmeralda Martinez
On Behalf Of:
Committee: Senate Committee On Rules
Measure: HB4016

I am writing this letter as a constituent and a concerned citizen. When we allow large Corporations to come in and monopolize any industry the American People do not benefit! Look at housing, our neighbors, friends, family members living in homeless. Which is beyond belief in the beautiful state of Oregon. Will the citizens of Oregon be thrown to the Fat Cats with big cash rolls, they do not shop here, they do not live here, they don't care!! The small business shop once again will trampled by the large corporations! With no regards to the people of this beautiful state. We the people say absolute power corrupts absolutely, we see this all around! Say No to having Large Corporations taking control of any industry. We need small businesses, small business are the citizens of Oregon, we love this beautiful state.
