Welcome to the Oregon Broadband Map

Version 1.0

This map uses the most recently available broadband availability data from the Federal Communications Commission (FCC) to illustrate broadband service availability and eligibility for the Oregon Broadband Office's grant programs as they become available. The Broadband Office will update this map as new data becomes available. Data is current as of 8/16/2023.

As the Department launches new grant programs, this map will be updated to show:

- Location eligibility information
- Applications submitted for grant programs
- Awarded projects
