

Supporting America's School Infrastructure (SASI) Program

Michael Elliott
Director of School Facilities and
Special Projects

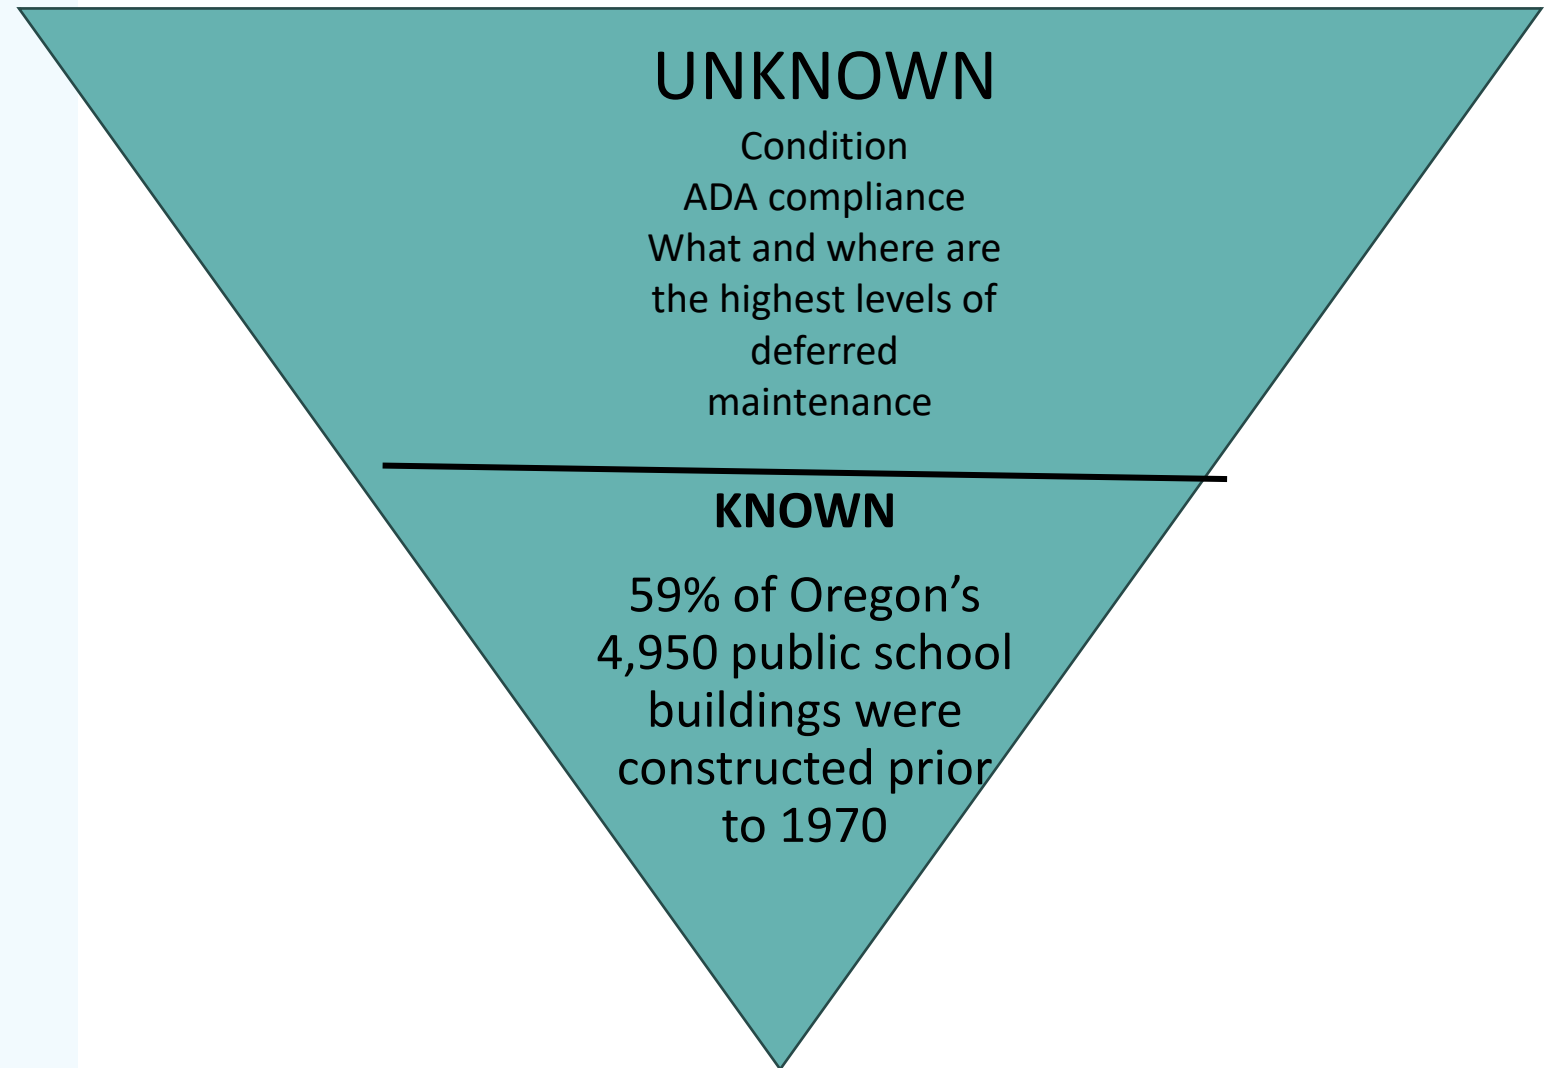

What we know about Oregon Schools:

Square feet

Building use type

Number of buildings

Estimated \$10.6 Billion in deferred maintenance

Statewide School Facility Assessment Solves the Unknown

- Non-destructive testing and inspection of ALL building systems
- Complete report of deferred maintenance levels by building system
- Prioritization system of deferred maintenance reported

Safe, Healthy, Sustainable and Equitable schools for ALL students

Oregon Department of Education

SASI PROGRAM PURPOSE

Increase the capacity of States to support high need districts in leveraging other available resources to improve school facilities

Current Capacity at ODE:

- \$2 million/year in state funds for statewide facility assessment
- Assessment for entire state completed on a 5-year cycle.
- Usable data available after 5 years

SASI Increases

- 2-3 years to complete first assessment
- Increase information gathered with ADA assessment
- Regionally prioritize high needs districts

Addressing Barriers in the SFA

The ODE is requesting \$5 Million to use in 5 years.

\$3,899,232

- Prioritize high needs school districts and accelerate the statewide facility assessment from 5 years to 3 years
- ADA Assessment

\$1,100,768

- Travel to conduct onsite training and aid districts on how to effectively use assessment data to leverage resources
- Hire staff to help quality control the massive amounts of data being submitted at a rapid rate by the contractor
- Ensure accountability

Benefits of These Programs

- Standardized measure to manage better
- Get accurate statewide data
- See the big picture
- Identify Patterns
- Find New Opportunities
