

Ballot Measure 110 is a complete failure. Millions spent on treatment with virtually no one showing up for treatment. It has also had the unintended consequence of making high earners leave Multnomah county in the amount of one billion dollars in lost tax revenue, last year alone.

In addition our lax 110 policies have encouraged migration from other states to Multnomah county, this is verifiable in Multnomah counties own Person to Person point of contact interviews. You can't solve a federal problem like this locally.

Measure 110 needs to be repealed before its too late,

Sincerely,

Dirk Staschke
