

Please fix Portland. I grew up here and am now raising a family, the current policies and leadership are just awful. Many of you do not see what's going on a daily basis. I deal with it everyday please make meaningful changes or risk a land of permanent dystopia.

- Make possession of lethal drugs like fentanyl, heroin, and meth A FELONY
- Give law enforcement tools to put addicts in jail. Severe consequences, will help people change their lives. I have seen it firsthand.
- Increase penalties for drug dealing and PUBLIC DRUG USE.

The children are scared.
