

I write to share my unconditional support of repealing Measure 110. The damage this has done to our communities is so obvious. Oregon is on a downward spiral and decriminalizing drugs is one component for the reason that has happened. To me, it was obvious when put in place. People who enjoy drugs were basically invited to move here, especially when we enable them by providing food, shelter, needles, etc.

Do the right thing and vote to repeal 110.
